2012	Joe Lutkenhaus	Microbiology, Molecular Genetics and Immunology

Note: The Horwitz Prize was established in 1967 by Columbia University and has been awarded every year for outstanding basic research in biology or biochemistry. The purpose of the prize is to honor a scientific investigator, or group of investigators, whose contributions to knowledge in either of these fields are deemed worthy of special recognition. The prize is widely considered to be a precursor to the Nobel Prize.

2016	Shannon Blunt	Electrical Engineering and Computer Science
2016	Michael Branicky	Electrical Engineering and Computer Science

Note: IEEE Fellow is the highest grade of membership and is recognized by the technical community as a prestigious honor and an important career achievement. Less than 0.1 percent of voting members are selected each year for Fellow status. IEEE is the world's largest technical professional organization with 420,000 members in 160 countries.

Members in the Southwestern Region were first awarded Fellow status in 1951. Institutions are not identified in the Fellows directory so this list may be incomplete for KU.

Note: The Presidential Early Career Award (PECASE) was established in 1996 by President Clinton. Several federal departments and agencies annually nominate the most meritorious young scientists and engineers. Award winners are selected on the basis of two criteria: pursuit of innovative research at the frontiers of science and technology and a commitment to community service as demonstrated through scientific leadership, public education, or community outreach. Winning scientists and engineers receive up to a five-year research grant to further their study.

Note: The MacArthur Fellowship or "Genius Grant" has been awarded annually since 1981 by the John D. and Catherine T. MacArthur Foundation to 20-30 individuals, working in any field, who have shown "extraordinary originality and dedication in their creative pursuits and a marked capacity for self-direction." The current prize is \$625,000 paid over five years in quarterly installments. The Program allows no applications. An anonymous group nominates potential Fellows and recommends them to an anonymous selection committee of about a dozen people. The committee reviews all nominees and recommends recipients to the President and board of directors of the Foundation.

FACULTY AS OF FALL 2018
University of Kansas
Lawrence Campus

<u>Year</u>	<u>Faculty Member</u>	<u>Department</u>
2016	Joanna Slusky	Molecular Biosciences and Center for Computational Biology

Note: The Gordon and Betty Moore Foundation has established the Inventor Fellows program to focus on investment at a critical stage of research to capture opportunities that otherwise might be missed and provide support to early-career researchers. Each fellow will receive \$825,000 over three years to drive their invention forward, including \$50,000 per year from their home institution. Nominations for the award are open only to Association of American Universities institutions and 15 additional institutions from the top 50 National Institutes of Health-funded medical schools. The inaugural cohort was selected in 2016.

<u>Year</u>	<u>Faculty Member</u>	<u>Department</u>
1993	Robert C. De Lisle	Anatomy and Cell Biology
2003	Peter Baumann	Molecular and Integrative Physiology/ Stowers Institute
2008	Julia Zeitlinger	Pathology and Lab Medicine/Stowers Institute

Note: The Pew Charitable Trust was established in 1948 by the children of Joseph N. and Mary Anderson Pew. The Scholars Program in the Biomedical Sciences makes grants to selected academic institutions to support the independent research of outstanding individuals who are in their first few years of their appointment at the assistant professor level. The current grant level is \$240,000: \$60,000 per year for a four-year period. Only 179 institutions are invited to make one nomination per year with twenty-two awards.

<u>Year</u>	<u>Faculty Member</u>	<u>Department</u>
1984	Scott Hawley	Molecular and Integrative Physiology/ Stowers Institute
1997	Robert C. Dunn	Chemistry
2006	Kausik Si	Molecular and Integrative Physiology/ Stowers Institute

Note: The Searle Scholars Program was founded in 1980 at the Chicago Community Trust, funded by the John G. Searle family estates. The program is designed to support the independent research of outstanding individuals who are in the first or second year of their first appointment at the assistant professor level, and whose current appointment is a tenure-track position. Grants are made to the selected academic institutions for \$100,000 per year for three years. The first grants were made in 1981. Only 161 institutions have been invited to participate in the program.
